

SECTION-3 CHAPTER-1

GENERAL MEDICINE

3.1.1.a: AIMS: To be able to examine, diagnose and treat a patient medically in a dental practise.

3.1.1.b OBJECTIVES:

Knowledge & Understanding: The Curriculum is structured to occur in the patient care context through the recognition and application of the principles of verbal and written communication with patients, families, colleagues, and other healthcare professionals, and in discussions and presentations with healthcare professionals.

Skills: Residents are expected to be able to use scientific evidence and methods to investigate, evaluate, and improve patient care practices.

Attitudes: Students are expected to demonstrate behaviours that reflect a commitment to continuous professional development, ethical practice, an understanding and sensitivity to diversity and a responsible attitude toward their patients, their profession, and society.

3.1.1.c OUTCOMES:

Students shall demonstrate the ability to apply this knowledge to improve and optimize health care.
